

ThinkRF Lunch 'n' Learn

Software Defined Spectrum Analyzers

Join us at this exciting Lunch 'n' Learn for more information on meeting the requirements for monitoring in today's complex, dense and diverse environments.

Presenter

Nikhil Adnani
CTO
ThinkRF

Date & Location

Tuesday, August 14th, 2018
12:00pm – 1:00pm
Bell Canada Creekbank Campus
5115 Creekbank Rd, Mississauga, ON
Building D, Fl 5, Rm 5E
*Lunch will be provided.

ThinkRF is the leader in software-defined spectrum analyzers that monitor, detect and analyze complex waveforms in today's rapidly evolving wireless landscape. Built on patented technology and quality by design principles, the ThinkRF solution offers greater versatility, better performance and additional capabilities for 5G, signals intelligence (SIGINT), spectrum monitoring, technical surveillance countermeasures (TSCM) and test and measurement applications. Aerospace and defense companies, spectrum regulators and wireless communication and security providers use the remotely deployable, PC-driven and easily-upgraded platform to replace traditional lab equipment for wireless spectrum analysis.
